

CHARM EUROPEAN UNIVERSITY (CHARM-EU)

(CHallenge-driven, Accessible, Research-based, Mobile)

Mission & Vision statement

Based on the remarkable achievements of the European Higher Education Area, the mission of CHARM-EU is to promote the common European values emphasizing the richness and diversity of the European tradition, strengthening its external window and focusing strategically on trying to rethink the role of Europe in the World as it faces one of the main global challenges in the 21st century: Reconciling Humanity with the Planet.

CHARM-EU will offer a transformative, truly European educational experience to citizens of the world building upon the strengths of this alliance that expresses the best of the different European academic and educational traditions and its relationship with culture. Ultimately, CHARM-EU will be an ambitious and innovative example of the fundamental common values that are at the core of the university history in the framework of European plurality.

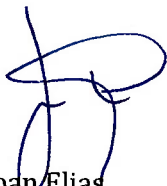

CHARM-EU:

1) will offer a learning experience that, having mobility and inclusivity at its core, is based on the implementation of a transformative approach to program and curricula design combining the best of the different European traditions in structuring curricula, through knowledge-creating teams, with a flexible, skill-oriented modularisation structure. Leveraging the synergies in the knowledge triangle and following the strong interdisciplinary research and innovation capacities of the consortium members, CHARM-EU will become a decisive partner in solving the policy issues within the context of the Sustainable Development Goals (SDGs) that the EU and its Member States are currently facing.

2) will deliver an innovative, challenge-driven, student-centred, and self-directed teaching model that integrates research, teaching, innovation and enquiry within and across the disciplines, open to the whole world, which can become a valuable precedent for all Universities in Europe. CHARM-EU envisages a European higher education campus utilising the latest modern technology in the service of accessibility and internationalisation and through implementing a new model of curricula design.

Thus, CHARM-EU 's vision is to become a world example of the best of the European education tradition, offering a truly open, plural, inclusive, flexible, student-centred learning experience to citizens from the entire world. CHARM-EU is ultimately committed to increase the quality of education, research, and international competitiveness of the European Higher Education landscape. CHARM-EU will be put to the service of the European values of freedom, academic autonomy, and human rights.
