

Transforming Open Responsible Research  
and Innovation through CHARM

This project has received funding from  
the European Union's Horizon 2020  
research and innovation programme  
under grant agreement No 101017229.

# R&I Common Science Agenda and European Universities

Prof. Albert Diaz-Guilera (UB) – WP4 Leader  
March 2nd, 2022 – Annual Open Forum

# WP4 Common Science Agenda

# Deliverables in WP4

<b>Deliverable Number<sup>14</sup></b>	<b>Deliverable Title</b>	<b>Lead beneficiary</b>	<b>Type<sup>15</sup></b>	<b>Dissemination level<sup>16</sup></b>	<b>Due Date (in months)<sup>17</sup></b>
D4.1	Strengths and complementarity report	1 - UB	Report	Confidential, only for members of the consortium (including the Commission Services)	4
D4.2	Common Science Agenda challenge list	1 - UB	Report	Public	8
D4.3	Implementation analysis report	1 - UB	Report	Confidential, only for members of the consortium (including the Commission Services)	15

# D4.2 Common Science Agenda Challenge List

# D4.2 'Common Science Agenda Challenge List'

<b>Work package number</b> <sup>9</sup>	WP4	<b>Lead beneficiary</b> <sup>10</sup>	1 - UB
<b>Work package title</b>	Common Science Agenda		
<b>Start month</b>	1	<b>End month</b>	

Objectives
<p>The overall main objective of this WP is to develop the list of challenges the CHARM-EU alliance will face in each thematic area, from institutions strengths and complementarity, taking into consideration the state-of-the-art, the financing mechanisms, barriers and common infrastructure needed to implement them. To this purpose, we have identified the following operational objectives:</p> <p>O4.1 Analyse the research strengths and complementarity in each institution.</p> <p>O4.2 List the challenges to face given the diversity and complementarity of our research strengths. Focus on inter- and transdisciplinary cooperation, combining curiosity-driven and utility-driven research, with a clear view on its impact, with particular importance to societal challenges and the needs of the community.</p> <p>O4.3 Study financing instruments, barriers and infrastructure to implement the common science agenda.</p>

## Description of work and role of par

### WP4 - Common Science Agenda [Months: 1-15]

UB, TCD, UU, ELTE, UM

WP4 will be conducted with the participation of each University.

Task 4.1 Institutions strengths and complementarity analysis for each thematic area - (M1-M4) - Lead UB – Participate: all. This task will analyse and identify the strengths of each institution, with special focus on complementarity, in each thematic area. Desk-based research will be used to conduct this analysis. A report will be developed summarizing the strengths of each institution and the complementarity between partners.

Task 4.2 Transdisciplinarity common challenge agenda and state of the art - (M5-M8) - Lead UB – Participate: all. This task will use the analysis from T4.1 as a baseline to list the different societal challenges CHARM-EU wants to face in each thematic area. The list of challenges will take into consideration the expertise of each institution, its complementarity and the critical research mass the collaboration will reach that could not be reached by each institution by itself. A state-of-the-art study and a proposal of a Knowledge Creation Team60 (KCT), with the inclusion of non-academic actors and cooperation with other sectors, will be added to each challenge. A report will be developed with the list of societal challenges, the justification of the selection and a proposal of KCT for each challenge.

Task 4.3 Implementing the Common Science Agenda, an analysis on financing mechanisms, barriers and common

# D4.2 - Methodology

1

## DATA COLLECTION

### Research Areas Questionnaire

- Researchers
- Fields of Science
- Thematic Lines
- SDGs
- Research Keywords

## INSTITUTIONAL ANALYSIS

### Partners Results Breakdown

- Input: Form Results + Institutional Research Plans
- Outcome: 3 Priority SDGs + List of Potential Researchers

## CHALLENGE PRODUCTION

### SDG-Expert Focus Groups

- Preparation: Challenge Proposal Form (Researchers)
- 3 SDG-Focus Groups
- Outcome: Challenges (at least one per SDG)

2

## BIBLIOMETRICS

- 2 approaches: co-authorship + shared references in publications

## D4.2 REPORT

### METHODS

- Questionnaire + Focus Groups
- Bibliometrics

### RESULTS

- Challenges + KCTs (According to SDGs)
- State of the art (Partners Strengths & Complementarities)

### DEADLINE

January 2022\*

# D4.2 – Participatory Process

## Researchers invited to participate:

- Each institution followed tis own approach: 50 – 1860
- Response: 6.6% - 74%
- Number of researchers: 33 - 123

# D4.2 – Institutional analysis

Each partner examines results:

- **Institution Research Strategic Plan**
- **Priority Research Areas & SDG at each institution**
- **Compared to choices by the researchers according to TORCH**

**Thematic areas**

- **Final decision taken by WP4: 3 SDG's in a broad sense**

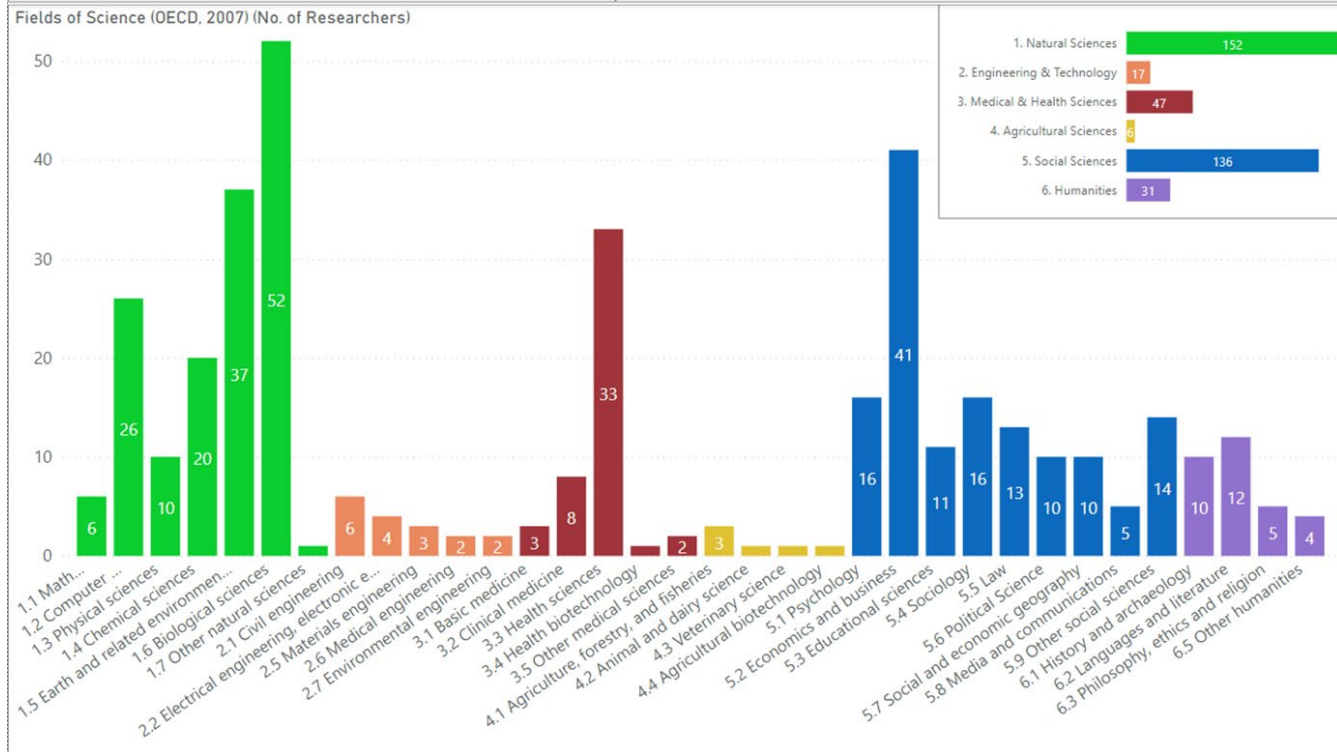

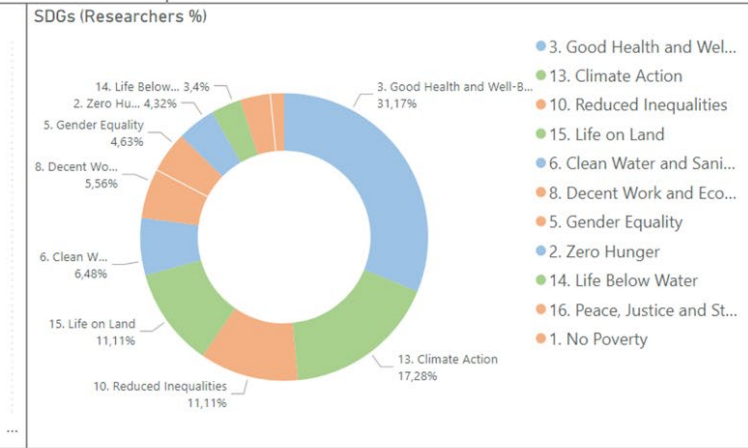

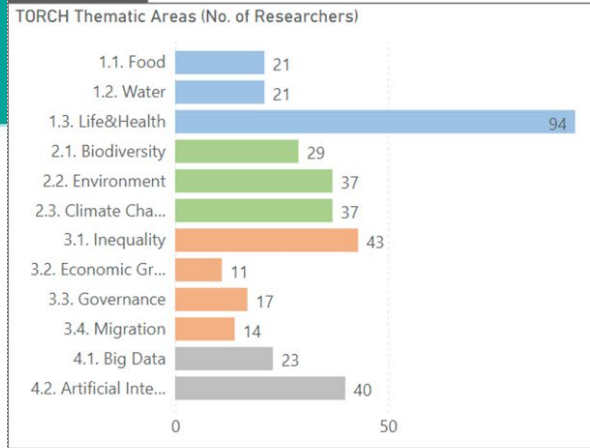

# D4.2 – Participatory Process

TORCH Thematic Lines	UN SDGs
1. Food, Water, Life & Health	SDG2 - Zero Hunger
	SDG3 - Good health & Well-Being
	SDG6 - Clean Water & Sanitation
2. Biodiversity, Environment, Climate Change	SDG13 - Climate Action
	SDG14 - Life Below Water
	SDG15 - Life on Land
3. Inequality, Economic Growth, Governance, Migration	SDG1 - No Poverty
	SDG5 - Gender Equality
	SDG8 - Decent Work & Economic Growth
	SDG10 - Reduced Inequalities
	SDG16 - Peace, Justice & Strong Institutions
(4. Big Data, Artificial Intelligence)	Transversal

## 3 SDGs selected after institutional analysis :

- 3. Good Health & Well-Being
- 10. Reduced Inequalities
- 13. Climate Action

# D4.2 – Challenges Formulation

Researchers are invited to fill a questionnaire:

- Outline a research challenge -> SDG
- Assign researchers to SDG
- Creation of the Focus Groups

# D4.2 – Challenges Formulation

## Focus Group on SDG3 – Good Health & Well-Being

### Proposals:

**SDG3-C1: ACTIVE: Adult Child and Teenage participation In physical actiVity across Europe.**

**SDG3-C2: Prevention and preparedness of negative effects of climate change on vector-borne infectious diseases.**

# D4.2 – Challenges Formulation

## Focus Group on SDG10 - Reduced Inequalities

### Proposals:

**SDG10-C1:** Coping with digitalization and the transformation of the world of work as a new source of inequalities.

**SDG10-C2:** Designing better universities to fight against inequalities.

# D4.2 – Challenges Formulation

## Focus Group on SDG13 - Climate Action

### Proposals:

**SDG13-C1:** Preventive Water Sustainable Management of Freshwater resources within the Global Change.

**SDG13-C2:** Mapping Risks, Joining Funds, Taking Actions – Fostering Nature-based Solutions to Mitigate Climate-related Hazards.

# Available Bibliometrics (SDG3) (Albert Diaz, UB)

# Bibliometric analysis (SDG3)

- authors identified with SDG3 + TL1, from questionnaire
- Searched in Scopus YEARPUB AFT 2017
- BIB file with complete information
  - Authors (filtered AU-ID), title, affiliations
  - Citations, references, keywords, abstracts
- STATIC
- DYNAMIC

# STATIC: Bibliometrix -> Biblioshiny

- Sources
- Papers
- Authors
- Institutions
- Countries
- Keywords
- Titles
- Abstracts
- References

Collaboration network of institutions

# DYNAMIC: Bibliometrix -> Our own tools

- Interactive application.
- Access: <https://www.charm-eu.eu/torchlibrary/>
- Nodes are always authors from the collection
- Node shapes indicate the different universities
- Nodes of the same color belong to the same community (they are similar)

# DYNAMIC: Bibliometrix -> Our own tools

In the top menu you can choose among 3 types of networks:

- **Collaboration:** links correspond to collaborations (authors not in the list have been removed)
- **Coupling by references:** links are weighted according to the number of references shared among authors
- **Coupling by keywords:** links are weighted according to the number of keywords shared among authors

# DYNAMIC: Bibliometrix -> Our own tools

- Nodes can be dragged and dropped anywhere
- Clicking in one node opens a small window with information about the author (name, university, department, keywords, and publications)
- Clicking on any of the publications opens a window directly on the published paper
- To close all windows, double-click on any area outside the window

# Challenges -> WP8 & WP9

- Published in D4.2 (public report).
- Shared with the Alliance's academic community.

## Annual Forum

- Presented and discussed in TORCH Annual Forum (Budapest, March 2022), in order to incorporate the non-academic actors insight.

## 2<sup>nd</sup> Half of the Project

- Submitted to CHARM-EU Vice-Rectors Committee and Rectors Assembly. Which of them will be developed further during 2022-2023 as pilots (TORCH WP9 'Action Plans and Pilots').
- Encouraged to apply for international and national funding opportunities that will allow implementing them as research projects from 2023 onwards.
- Ethics Committees review.

# D4.3 Implementation Analysis Report

# Tasks related to Deliverable D4.3

**Task 4.3 Implementing the Common Science Agenda**, an analysis on financing mechanisms, barriers and common infrastructures (M9-M15) - *Lead UB – Participate: all*. R&I funding agencies have different mechanisms to fund different societal challenges. In this task we will study the different funding instruments we have at a national and European level to fund the R&I common science agenda. We will consider funding instruments available beyond the academic ones, taking into consideration the different actors and institutions that will be part of the knowledge creation teams doing research for the specific challenges.

The study of financing mechanisms will raise, as we are experiencing in the CHARM-EU Erasmus+ project, the barriers at legal, ethical and financing level to implement the common science agenda. The working groups will be in contact with the legal services of each institution and possible other actors of the KCT to discuss the legal framework. The working group will also deliver the agenda to ethics committees to study possible ethical aspects to consider. This task will also study the necessities on infrastructures each challenge will present to do R&I. We will study the legal framework and funding possibilities to access those infrastructures that already belong to one of the actors of the KCT. An implementation analysis report considering financing instruments, barriers and common infrastructures will be developed and delivered to WP8 and the commission.
